

MARKET TRADERS RISE TO THE CHALLENGE

We are all aware of spiralling costs in our day to day living – if only from being constantly reminded by the media.

With housing, food, petrol and utilities hitting our pockets we look to cut back on other expenditure and although luxury items and special treats are not too hard to go without, there are other things that still need replacing. Children continue to grow out of their clothes, shoes wear out, domestic items get broken..... the list is endless and these things still have to be bought.

Now, we know through first hand experience that the traders in the Pannier Market are a 'great bunch' and that the Pannier Market is frequently referred to as the 'Jewel in the Crown' of Tavistock.

DOINGS AT THE PANNIER MARKET

WHO IS WHO?

Commencing with this Autumn 2008 edition, we hope to publish a short résumé on each of our Councillors.

Probably the most democratic way of going about this is by surname, in alphabetical order – so the Editor is hopeful that this will offend no one!

Our Town Councillors were elected last May for a four year term, so even the 'new ones' are one year the wiser
