

Agenda Item 9b

The past few months have been very interesting in Tavistock following the announcement that Fusion our leisure provider had gone into administration.

We have been working hard to secure a new leisure provider who will run our centres for the next year on a short-term contract.

Specifically, we have moved fast to make sure that there is no gap in service provision and no closures of the centres, this has helped us to preserve staff jobs, something that I was very keen to have happen.

I attended the forum for the Violet Lane proposed planning application at the Town Councils Chamber recently, and I am keen for us to have a Traffic survey encompassing all of the proposed development in the town not on a one-to-one basis, we really cannot have the town clogged up with traffic.

Plans are in place to renovate the Brook street car park which has become very tired looking over the past few years.

Let's hope the town thrives in the summer like it did last year, when it seemed to be buzzing with visitors, hopefully the weather will be kind.

Kind Regards

Cllr Adam Bridgewater
